

THE TRUSTED NAME IN GUNSAFES

*Built & Independently Tested to
British Standard BS7558 for
Gun Security Cabinets*

Why compromise on your security? When it comes to gunsafes, quality really does matter.

When you purchase a Brattonsound Gunsafe you buy the peace of mind that comes with knowing you have the finest quality gunsafe available.

Since we were established, in 1982, the Brattonsound name has become synonymous with gunsafes through our commitment to shooting sports, combined with engineering excellence and unsurpassed customer service.

Our products are proudly manufactured and distributed from our state of the art factory in Surrey. Our unshakeable confidence in our products and our UK engineering base enables us to offer an unrivalled 3 year on-site warranty.

Brattonsound does not sell direct to the public, but our products are available from many gun shops across the UK. This gives you the opportunity to see the impressive design and build quality of our products before you buy.

By purchasing a Brattonsound Gunsafe you will be joining a family of over 360,000 fellow shooters that have put their trust in us.

SENTINEL

Level 1

Built and tested to BS7558 (the British Standard for gunsafes) the Sentinel offers fantastic value for money at our entry level. Even at this level our Sentinel Gunsafes incorporate many security features other manufacturers overlook. The Sentinel range offers storage for between 1 and 5 guns and the models compact sizes help where space is at a premium.

- **Superior strength 7 lever safe deadlock(s)** - with forged steel bolt, reinforced casing and reinforced internal mechanism
- **Extra door reinforcement** - on full height models

TITAN

Level 2

The Titan, as its name suggests, is a larger capacity gunsafe, which is built to the same specification as the Sentinel Plus. A single gunsafe can hold up to 14 shotguns and provision is made to fit two Titans together to hold up to 28 shotguns. For rifles we offer provision for up to 10 scoped rifles in the single gunsafe or up to 20 scoped rifles if you have two Titans fitted together. The high quality in-house workmanship of the Titan Gunsafe is stylishly set off with a laser cut steel name badge.

- Double skinned vault type door
- 5 point locking with electro-plated door pins
- 7 lever double throw lock with double bitted key
- Radial tumbler lock on internal compartment

As standard the Atlas Gunsafe is locked with a double bitted key. As an option it can be fitted with a digital keypad.

The high quality workmanship on the Atlas can be complemented with optional blue baize lining

On-site warranty - 3 years

At Brattonsound we view the manufacture and sale of gunsafes as the beginning of a process not the end. As an established part of the UK shooting industry for over 35 years our back-up and warranty cover will give you peace of mind that no other gunsafe supplier can offer.

Our reputation has been earned through many years of offering excellent products & customer service and our sales team are ready to offer assistance no matter how old a Brattonsound Gunsafe you may have.

This commitment to our customers and our products is demonstrated by the fact that we are the only gunsafe manufacturer to offer a comprehensive 3 year on-site warranty in the mainland UK and Northern Ireland.

Although terms and conditions apply they are very reasonable and we invite you to view them on our website. Please note that not all warranties are the same and, in the unlikely event of a warranty claim, we **do** cover opening the gunsafe if it is locked shut!

FEATURES ON ALL BRATTONSOUND GUNSAFES

- Strong 2mm thick fully welded construction (including fully welded top)
- Full length anti-jemmy bar
- Full length anti-lever flange and door interlock
- Recessed door
- High density foam divider and floor mat
- Outstandingly durable powder coated finish
- 14mm fixing holes in back and base

OPTIONAL EXTRAS

Shelves - Full width shelves, spaced to your requirements, can be fitted in all models.

Hinged Left Hand Side - As standard all models are hinged on the right - Sentinel and Sentinel Plus models can be hinged on the left as an option. Please note: on Sentinel models this will result in the keyholes being upside down, although the operation of the gunsafe is unaffected.

Fixing Bolts - We can supply fixing bolts for securing any of our gunsafes to a brick or concrete wall. These are well sized to make fixing the gunsafe as straightforward as possible. Brattonsound or your stockist can tell you more about these and give advice about fixing to other types of wall such as breeze block or timber framed houses.

Brattonsound has manufactured over 360,000 gunsafes
